

FAIR OAKS
DYNAMIC CREDIT

FUND SUMMARY

The Fair Oaks Dynamic Credit Fund (the "Fund") offers global access to senior secured corporate loans through investments in Collateralised Loan Obligations ("CLOs"). The Fund is actively managed with a strong emphasis on bottom-up fundamental credit analysis. The Fund primarily seeks exposure to investment-grade rated CLO securities on a long-only basis and with no leverage used at fund level.

COMMENTARY

The Fund's total return was -0.83% in October (see performance table) taking the year to date performance to +3.63%¹. The JP Morgan CLOIE BBB index returned -1.1% in October while the BBB Corporate Bond index and the High Yield index returned -0.15% and +0.19% respectively².

European CLO new issuance totaled €25.8 billion year-to-date, compared with €22.9 billion in the same period in 2018³. New issue CLO activity has been facilitated by strong demand for European CLO AAA notes, which has resulted in European AAA CLO spreads tightening 10bps year-to-date³. European CLO mezzanine buyers, a smaller and arguably more stable investor base, have required wider spreads to absorb this increased supply. Primary BBB CLO spreads, as a consequence, have widened by 10bps in October and 20bps year-to-date³.

We continue to believe that European BBB CLO notes, given current spreads and their risk profile, offer one of the most compelling opportunities in credit markets. This is supported by their current carry with potential upside once primary supply falls.
