

Fund summary

The Fund offers access to AAA and AA rated notes of European and US Collateralised Loan Obligations ("CLOs"), on a long-only basis and with no leverage used at fund level.

CLOs are structured products backed by diversified portfolios of senior secured bank loans and managed by specialist managers. CLO debt securities (including AAA and AA rated notes) benefit from incremental protection from the loss-absorbing equity and junior-ranking debt.

Fair Oaks believes that AAA and AA rated CLOs offer significant relative value compared to corporate bonds and other asset-backed securities. According to Standard & Poor's, in the period 1997 to 2020, the cumulative default rate for AAA and AA rated global CLOs were 0.0% and 0.1%, respectively¹.

Investment strategy

Fair Oaks' strategy is to identify attractive risk-adjusted investment opportunities in AAA and AA rated CLOs via a combination of detailed credit analysis, in-depth structural and documentation review and rigorous manager due diligence. Fair Oaks seeks to optimise returns through active security selection and asset allocation across geographies and rating categories.
